Academic Success Centers: Your success is what we do

ASC Tutoring & Placement Assessment Prep

The Academic Success Centers (ASC) can help you **brush up and update your skills in preparation for your required program placement assessment**. We offer short term review and practice for the COMPASS and the TEAS. Once you are enrolled, we can help you with your general education studies.

The ASCs provide free **tutoring in general coursework to enrolled WATC students**. **All tutoring is on a walk-in basis; there is no provision for individual appointments**. All ASC tutors are able to assist students with basic writing, math, and computer skill needs, including assistance with log on and navigation of Blackboard. A listing of the tutors' individual areas of expertise and of the current schedule are found at <http://watc.edu/admissions/tutoring/>.
