The President shall have the responsibility for determining the number of positions employed by the College. If the President determines the need to reduce the number of positions due to changing priorities, budgetary constraints, enrollment or anticipated enrollment, or other conditions, the President may, at his/her discretion, declare the existence of a reduction in |
force (RIF). A RIF can also occur when the needs of the College change so significantly that the employee in the position no longer has the demonstrated capability, competence, and/or appropriate experience to perform the required essential functions of the changed position.

Foulston Sieffkin reviewed the policy. The Faculty Council and Leadership Council also reviewed and approved the policy.

The above policy was considered and discussed and thereupon on motion of Board Member Matt Leary, seconded by Board Member Kim Shank, the 2-46 Reduction in Force Policy was approved.

Conceal and Carry Legislation

Conceal and Carry Legislation – Colin Gallagher
February 18th, the Wichita Eagle announced last week the House of Representatives would be hearing a concealed carry handgun law allowing more people to carry handguns in a variety of public places where they have not been able to carry to date. Of those locations, Schools of higher learning would be allowed. The HB2055 bill eliminates the Boards ability to regulate who carries a handgun on campus.

Senator Forrest Knox and Representative Steve Brunk claims that by possessing a firearm in a school setting will prevent incidents like Columbine and Virginia Tech from occurring.

There are a number of issues with this law as it is proposed:
- concealed handguns would detract from a healthy learning environment
- More guns on campus would create additional risk for students
- Shooters would not be deterred by concealed carry permit holders
- Concealed carry permit holders are not always “Law-Abiding” Citizens
- Concealed carry permit holders are not required to have law enforcement training
- Law enforcement are likely to shoot an armed student, not asking questions first

The board discussed and agreed they will stay out of the gun control issue and compose another letter opposing the bill due to the bill taking away the Boards local control.

KBOR Performance Agreement

KBOR Performance Agreement
The performance agreement will be discussed at a later date. The college has met nearly all of the benchmarks in the report.
