### The Friendship Connection: How IT and ID&T Work Together when Deploying Tablet Technology on Campus

**Monica Stewart**  
Instructional Designer  
Wichita Area Technical College

**Blayne Beham**  
Senior Systems Engineer  
Wichita Area Technical College

Planning and leveraging a deployment plan when implementing new technologies on a campus wide scale is important to the success of the initiative. Hear about the struggles and triumphs of deploying iPads across campus for faculty, staff and student use from the perspective of the Instructional Designer and IT Engineer who made mobile technology a reality on campus. These “experts” will also be available to answer questions and provide discussion about why mobile technology is in high demand on college campus and how it should be made available.  

**Session, Time and Location**  
Session 2A  
10:00 a.m. – 10:50 a.m.  
(Location TBA)

### Moodle Your Noodle!

**Kim Dhority**  
Director, Instructional Design Center  
Flint Hills Technical College

Moodle is an open-source learning management system. In this workshop attendees will learn how to use Moodle and the resources that are available inside Moodle. Attendees will also learn how to use outside sources with this system.  

**Session, Time and Location**  
Session 2B  
10:00 a.m. – 10:50 a.m.  
(Location TBA)

### Let’s Discuss Online Discussions!

**Dr. Cathy Heffernan**  
Director of Instructional Technology and Online Summer School  
McPherson College

I have yet to meet anyone who teaches at the undergraduate level (myself included) who is wild about the results of their online discussion forums, yet I’m committed to discovering the secret to forum success. To that end, you’re invited to join a face-to-face discussion about the issues. We’ll start with a brief review of promising best practices found in the literature (handout provided); then we’ll open up the discussion and engage in some collaborative problem-solving. Newbies to experts: All are welcome.  

**Session, Time and Location**  
Session 2D  
10:00 a.m. – 10:50 a.m.  
(Location TBA)

### Web 2.0 Tools for the Classroom

**Dr. Anna Catterson**  
Neosho County Community College

Web 2.0 tools for the learning environment, both online and face-to-face. Learn how to take your current instructional materials and convert them into an interactive, dynamic learning environment where collaboration and “real” analytical skills take place. Also…learn how to give your student’s a PURPOSE to come to class, create instruction that is meaningful and will retain students semester to semester.  

**Session, Time and Location**  
Session 2E  
10:00 a.m. – 10:50 a.m.  
(Location TBA)

### Maximize Your Potential: Get Better Use from the LMS Tools You Already Have

**Solutions Engineer**  
BlackBoard

With the ever-changing functionality of your online teaching toolset, it is easy to get stuck using the same minimal set of functionality year after year. In this workshop, we’ll talk about how easy it is to get more out of the tools and features that you already have at your fingertips.  

**Session, Time and Location**  
Session 2F  
10:00 a.m. – 10:50 a.m.  
(Location TBA)
